

SiriMote Acknowledgements

SiriMote does not run in OS X's sandbox environment (and thus is not available on the Mac App Store) because it uses private APIs to send keyboard events.

Imagery used in SiriMote

Apple TV Siri Remote Schematic

by Apple, Inc. (<http://www.apple.com>)

SiriMote App Icon

The icon's outer colored ring is inspired by the iTunes for Mac icon created by Apple, Inc. (<http://www.apple.com/itunes>)

SiriMote is freeware, but if you wish to support Eternal Storms Software, please consider taking a look at my other applications. Thank you very much.
